

JOB OPPORTUNITY

ENVIRONMENTAL MONITORING SPECIALIST

STATUS: PERMANENT, FULL-TIME
LOCATION: KINGSTON, ONTARIO

Cambium is a successful consulting and engineering company built on quality people doing great work in a rewarding environment. It's our team that makes us unique.

And...our team is growing! We are currently seeking an **Environmental Monitoring Specialist** to join our team in Kingston and support local projects with specific attention to **erosion and sediment control**.

JOB DUTIES

- Inspect and advise for compliance with permit and environmental regulations, including erosion and sediment control plan, stormwater management plans, Permit to take Water, Endangered Species Act, and Renewable Energy Approvals.
- Review and provide input on erosion and sediment control plans.
- Perform erosion and sediment control inspections, issue daily inspection logs, and provide recommendations and inspection of corrective measures.
- Project activity coordination, managing subcontractors, technical leadership, and technical design for public and private sector clients in Ontario.
- Developing and administering project proposals, work plans, and project costing/budgeting.
- Design, manage and execute field monitoring programs such as streamflow monitoring, surface water sampling, and stormwater management inspections.
- Directly responsible for the health and safety of any person working on an assignment under the supervision of the project lead.
- Ability to interact, present findings and advocate on behalf of the client with applicable regulatory agencies and stakeholders.
- Coordinating with other disciplines (e.g. water/wastewater, geotechnical and biology/ecology) on multi-disciplinary projects such as site development, environmental remediation, landfill development, and/or environmental restoration.
- Provide training and guidance to junior Cambium personnel.
- Travel, shiftwork, and overtime may be required.

REQUIREMENTS/QUALIFICATIONS

- Post-secondary civil or environmental sciences, technology, engineering, or other suitable education.
- Certified Inspector of Sediment and Erosion Control (CISEC) designation
- 5 years experience with design or inspection of erosion and sediment control (ESC) measures for infrastructure projects.
- Demonstrated familiarity with the MTO Guides for Erosion and Sediment Control During Construction and the MTO Drainage Management Manual.
- Knowledge of standard engineered ESC methods and bioengineering approaches.
- Experience working on federally regulated waterbodies an asset.
- Experience designing ESC measures used within and adjacent to sensitive water features and fish habitat.
- Experience with provincially standardized sampling methods for biological monitoring (ELC, OWES, MMP, etc.) considered an asset.

JOB OPPORTUNITY

ENVIRONMENTAL MONITORING SPECIALIST

- Class 2 Backpack Electrofishing Certification and valid CPR considered an asset.
- A thorough knowledge of and ability to interpret regulations, guidelines and standards.
- Valid Driver's License

WHY CAMBIUM?

Our team is different. From camping trips and movie nights, to company ball-hockey tournaments in the parking lot, our team likes to have a good time together.

Our team is hard-working. You'll need to be flexible and able to switch priorities frequently. Sometimes the days are long. But you are always compensated for your efforts, including a minimum 3 weeks of vacation for new, full-time team members.

Our team is proud. Flexible scheduling. Donating a portion of our net income each year to local causes and events. Winning awards. You'll find it easy to feel good about Cambium.
